Education

Bachelor of Engineering in Electronics and Telecommunication — **2019 - 2023**
Dr. DY Patil's Ramrao Adik Institute of Technology, Mumbai University — *CGPA: 9.35/10*

Experience

Zeus Learning — **Aug 2023 - Present**
Senior UI Designer / Visual Design Analyst — *Mumbai, India*

- Led end-to-end UI design for **Quantum LMS/CMS**, a large-scale B2B platform used by educational institutions across multiple curricula.
- Defined scalable UI patterns and a centralized style guide based on **Angular Material**, ensuring technical feasibility and design consistency across modules.
- Owned sprint-level design execution, working closely with Product Managers, Developers, and QA teams to deliver features on time with reduced rework.
- Collaborated with 30+ developers, QA engineers, and content integrators to support complex academic workflows and diverse content formats.
- Acted as the primary design point of contact for stakeholders, aligning user needs, business goals, and technical constraints throughout delivery cycles.

Corbin Technology Solution — **Jan 2023 - May 2023**
UX Designer - Intern — *Mumbai, India*

- Designed the end-to-end UX and UI for a homegrown e-commerce app, **Swadeshi Brands**, focused on promoting organic and locally sourced products.
- Defined user flows, checkout journeys, and information architecture to simplify product discovery and purchasing.
- Created wireframes and high-fidelity UI in Figma, translating business requirements into intuitive, user-centered experiences.
- Collaborated closely with developers using GitHub to ensure accurate implementation, optimized assets, and consistent UI behavior.

Projects

Clio - Investment Portfolio Management | ***Complex Data Visualization***
- Solved for information density by designing a dashboard that simplifies complex financial data for novice investors, utilizing progressive disclosure techniques.
- Designed "Smart Trade" flows that automated decision-making based on user risk profiles.

Tryplore - Clothing App Case Study | ***User Research***
- Conducted generative user research and usability testing sessions to validate hypotheses, creating persona-based user flows that minimized friction in the discovery phase.
- Designed high-fidelity micro-interactions in Adobe XD to enhance perceived performance and delight.

Technical Skills

Strategy & Research: User Journey Mapping, Persona Development, A/B Testing, Competitive Analysis, Information Architecture, Heuristic Evaluation, Accessibility Audits (WCAG).

Design Tools: Figma (Auto Layout, Variables, Components), Adobe XD, Sketch, Prototyping.

Development: HTML5, CSS3, JavaScript, ReactJS, TailwindCSS (Ability to prototype in code).

Soft Skills: Stakeholder Management, Design Advocacy, Cross-functional Collaboration, Mentoring.
